Fiscal Report for Quarter Ending 09/30/2023

Introduction

1. The METS fiscal report is a product of the METS Executive Steering Committee Finance Work Group. This group includes financial management from MNIT, DHS and MNSure.
2. The report is produced quarterly, in accordance with M.S. 62V.055, Subdivision 3, and is available approximately 45 days following quarter-end.
3. The report includes two tables:
 - Table 1: Overall View of METS Budget. This table provides a four-year view of the METS preliminary budget for FY 2025. The FY 2025 preliminary budget for development reflects the last quarter of the current federal award. The FY 2025 preliminary operations budgets are assumed to continue at the current level, but will be re-evaluated annually.
 - Table 2A: Budget vs Est. YTD (expenditures & estimated remaining encumbrances). Table 2A shows the fiscal year 2023 budget, quarterly actual expenditures and estimated encumbrances. Note that this table includes an Expenditures After FY End column to report on the fiscal year expenditures that will be recognized after June 30, due to the standard procedural lag between invoicing and payments.
 - Table 2B: Budget vs Est. YTD (expenditures & estimated remaining encumbrances). Table 2B shows the fiscal year 2024 budget, quarterly actual expenditures and estimated encumbrances. Note that this table includes an Expenditures After FY End column to report on the fiscal year expenditures that will be recognized after June 30, due to the standard procedural lag between invoicing and payments.

Note: Expenditures often lag; that is, they do not occur at a steady rate throughout the year. Examples may include:

- State Personnel, due to payroll processing and interagency billing.
 - Staff Augmentation and Service Contracts, due to billing lag, timing of various projects based on development roadmap, and associated deadlines throughout the year.
 - Hardware/Software, due to processing time and the execution of payments throughout the year (not shown as accruals).
 - MNIT Central Services, due to processing and interagency billing.
4. The tables are based on the following standard reporting conventions:
 - a. Development v. Operations. Within both the Expenditure and Financing sections, development is distinguished from operations. Development includes federally defined and applicable work, and MNSure development contributions. All other expenses are considered operations.

- b. Expenditure Categories. Within the Expenditure section, the costs are reported in standard categories.
 - i. State Personnel. Developers, architects, project managers, business analysts, quality assurance, release management, security, and other MNIT staff, along with necessary business subject matter experts. Includes total compensation (salaries and fringe).
 - ii. Staff Augmentation. Contracted individuals or companies to increase capacity.
 - iii. Service Contracts. Major vendor agreements that provide expertise and enhanced functionality to the system.
 - iv. Hardware/Software. Initial purchases and ongoing support costs for licensing/software and hardware.
 - v. MNIT Central Services. System infrastructure components including, but not limited to, server capacity, data storage, networking, routing, and bandwidth, provided as a service from MNIT. Also includes staff equipment.
 - vi. General Administration. Training, supplies, travel, occupancy, and other miscellaneous administrative costs.
- c. Financing Categories. Within the Financing section, the revenues (by funding source) associated with the fiscal years' expenditures is estimated based on the standing federal Public Assistance Cost Allocation Plan (PACAP) methodology. Note that actual revenues lag behind the expenditures by approximately 45 days due to the standard timing of the federal PACAP process.

- Fiscal year Financing numbers are based on the federally-approved cost allocation methodology that is generally applicable to each fiscal year (that is, the report reflects a reasonable matching of expenditures and revenue).
- Expenditures After Fiscal Year (FY) End : Due to the standard lag between invoicing and payments, fiscal year expenditures may be recognized after June 30.

Notes:

- Development includes federally defined and applicable work, and MNsure development contributions. All other expenses considered operations.
- Expended includes actual fiscal year expenditures. Due to normal processing and invoicing time, some expenditure reporting may lag.
- Fiscal year Financing numbers are based on the federally-approved cost allocation methodology that is generally applicable to each fiscal year (that is, the report reflects a reasonable matching of expenditures and revenue).
- Expenditures After Fiscal Year (FY) End : Due to the standard lag between invoicing and payments, fiscal year expenditures may be recognized after June 30.
